PROFILE SUMMARY

Data Science student with a strong interest in applying analytical and programming skills to practical, real-world problems. Motivated to work on data-driven and AI-based projects, with a focus on continuous learning and hands-on experience.

EDUCATION

B.E Bachelors of Engineering in Computer Science and Engineering - Data Science - May 2026
Lords Institute of Engineering and Technology, Hyderabad

Intermediate (MPC – Mathematics, Physics, Chemistry)- May 2022
Alphores Junior College, Telangana State Board of Intermediate Education

Secondary School Certificate (SSC) -Mar 2020
Alphores High School

TECHNICAL SKILLS

Python | DSA | NumPy | Pandas | Power BI | Tableau | SQL | AI Tools | Java | HTML | CSS | Data Preprocessing & Manipulation

PROFESSIONAL EXPERIENCE

Machine Learning Intern – EduLumos | Jan 2026 – Feb 2026

- Built a strong foundation in machine learning concepts through hands-on tasks and practical problem-solving.
- Worked with datasets to analyze patterns and evaluate models while maintaining consistency and professionalism

CyberGuard – Advanced ML Model for Cybersecurity (Internship Project) — Manac InfoTech Ltd | Nov 2024 – Jan 2025

- Developed a machine learning model using Random Forest (RF) and MIP algorithms to anticipate and prevent cyber hacking breaches.
- Enhanced cybersecurity monitoring by analyzing attack patterns and generating predictive alerts

YHills – Data Science Intern | 3 Months

- Gained hands-on experience in data analysis, visualization, and basic machine learning modeling techniques.
- Worked on real-world datasets to extract insights and support data-driven decision making.

PROJECT EXPERIENCE

AI-Powered Career Guidance System — Self Project

- Built a Flask-based web application for AI-driven career recommendations.
- Integrated machine learning algorithms to suggest courses and career paths based on user inputs.

EduIQ – Student Progress Analysis — College Mini Project

- Analyzed student performance using Postgres, RAG metrics, and Knowledge Graph integration.
- Created dashboards and reports to identify learning gaps and track academic progress.

WanderMate-AI Trip Planner (Project)

- Developed an AI-powered travel planning web app that generates personalized itineraries based on user preferences, budget, and duration. Integrated AI APIs for recommendation and cost estimation using Flask and Python.

Smart Study Score Predictor

- Built a regression-based machine learning model to predict student exam performance using academic and preparation-related data.

Fake News Detection

- Implemented an NLP-based classification system using TF-IDF and Logistic Regression to identify fake news articles.

CERTIFICATIONS

- Data Fundamentals** | IBM SkillsBuild (2025)

Gained foundational understanding of data concepts, data analysis, and data-driven decision making.

- **Internship & Job Preparation Training** | Internshala (2025)
Trained in resume building, interview preparation, and structured job search strategies; achieved Top Performer (100%) score.
- **Power BI Certification** | Arasmo Technologies (Oct–Nov 2024)
Built interactive dashboards and performed data modeling and visualization to derive business insights.
- **Python for Data Science** | Simplilearn (2025)
Worked with NumPy, Pandas, and Matplotlib for data analysis, preprocessing, and visualization.
- **Web Development using AI** | Internshala (Completed 2025)
Learning to integrate AI models into web applications to build intelligent and interactive features.
- **Oracle Certified AI Foundations Associate** (2025)
- **Oracle Certified Data Science Professional** (2025)

ACHIEVEMENTS

- **Tata Group – Data Analytics Virtual Internship** | Forage (Oct 2025)
Completed a virtual internship involving data analytics and strategy simulation for the Tata iQ team.
- **Deloitte Australia – Data Analytics Virtual Internship** | Forage (Oct 2025)
Built interactive dashboards using Tableau and performed Excel-based data analysis for business insights.
- **Node.js Workshop** | WebileApps (Jan 2024)
Completed a 3-day national-level hands-on workshop focused on Node.js fundamentals.
- **Event Appreciation** | Sanketika & Datanova 2025
Recognized for actively contributing to the organization of a departmental technical event.
- **1st Prize – HackWeb Hackathon (College Level)**
Developed an AI-integrated web application and secured first place among competing teams.
